

# VOLCANO SAFETY TIPS

## BEFORE:

- Know your risk.
- Sign up for volcano alerts and stay tuned to the local media.
- Contact insurance company about volcano coverage.
- Review city's evacuation routes.
- Have a full tank of gas.
- Have all devices fully charged.
- Cover windows, doors, and other vent openings if there's ash fall.
- Stay indoors if there's ash fall.
- Bring your pet indoors or provide a safe shelter for them.

## DURING:

- Determine if you will evacuate or shelter in place.
- Do not drive if there's a lot of ash fall.
- Stay away from exclusion zones, like rivers, dams, valleys, and downwind.
- Use an N95 respirator mask and goggles for protection.
- Do not use the AC or heater.

## AFTER:

- Stay indoors until authorities say it's safe to leave.
- Assess the damage done to your home. Take photos and contact your insurance company.
- Remove ashes from your roof very carefully!
