

WILDFIRE SAFETY TIPS

BEFORE:

- Stay tuned to the local news.
- Prepare your car with a full tank of gas.
- Place a ladder up against your house, high enough to reach the roof.
- Turn off the propane tanks and move the BBQ and other appliances away from the home.
- Connect garden hoses to the front and back yard spigots.
- Get in touch with your neighbors to make sure they're able to evacuate.
- Be prepared to take your pets with you!
- Expect long-term power outages.

DURING:

- If under mandatory evacuation, evacuate immediately.

If under voluntary evacuation, do the following:

- Turn off the gas and pilot lights.
- Turn on the patio lights.
- Evacuate.
- Never fly a drone during a fire!

AFTER:

If your home did not experience any damage, do the following:

- Do not consume the tap water until it's safe to do so.
- Beware of landslides!
- Expect long-term power outages.
- Do not go near downed power lines! Contact the electric company right away if you see any.
- Inspect the utilities before turning them back on. You will need a professional to turn the gas main back on for you.

If your home suffered any damage, do the following:

- Take photos and document the damage.
- Contact your insurance provider.
